### Warranty

uNu is committed to building quality products that demonstrate superior performance and 100% customer satisfaction. A one-year manufacturer warranty is offered on all new uNu battery products. Make sure to visit our support page at [www.myunu.com](http://www.myunu.com) for more information.

## AX SERIES

### Which port should I use for my device?

Each USB port is labeled with its corresponding amp and recommended product type. The 2.1A port works best with iPad, the 2.0A works best with Android products, and the 1.0A works best with most smartphones.

### Does it matter which port I use?

Depending on the device you plug into the port, the device may charge slower than intended. Please make sure to know what amp output is recommended for your device. As a general rule of advice, most tablets require higher outputs than smartphones and other smaller devices.

### Where can I find additional information?

You can find additional information regarding the AX charger and all uNu products at [www.myunu.com](http://www.myunu.com)
