### FAQ

#### 1. How long does it take to charge my Micro?

While there are many different ways to charge the Micro, the average time to charge from a desktop computer is about 2-3 hours. Some chargers might be faster or slower depending on output.

#### 2. Can I use my own USB cable to charge other devices?

Our specialized Micro USB cable is specifically built to yield the most efficient results while charging. Therefore, it is highly recommended that you use the original cable. However, you

## ENERPAK SERIES

can use other charging cables but efficiency may be greatly reduced.

#### 3. How do I read the LED indicator?

When charging, the LED light will shine solid red. When fully charged, the LED light will turn OFF. Finally, when charging another device, the LED light will glow solid blue.

#### 4. What devices can I charge with my uNu Micro?

The uNu Micro can charge almost any mobile device, including most tablets and smartphones. Make sure to read your user's manual on any products that you wish to charge to ensure they are compatible with the uNu Micro before recharging.

#### 5. How do I turn off my Micro?

The Micro will automatically turn off after 1 minute of non-use. Or you can press and hold the power button located on the top-right side of the Micro until the LED lights turn off. This should take no more than 3 seconds.
